

Key concepts and questions

What is the purpose of a key?

Key: Each 😊 represents 2 people.

The picture can be worth more than 1 so it is important to look at the key first as this will give the value of the picture.

Sport	Number of people
skiing	😊😊😊😊😊
snowboarding	😊😊😊😊😊😊😊

How do you know which calculation to use?

ADDITION		SUBTRACTION	
add	+	take away	take from
plus		minus	fewer
and		less	take
total		reduce	difference
		remain	how many more
increase			
more			
sum			
together			

Read the question and look for key words to help you.

Key Vocabulary

row	vertical	table
column	horizontal	
key	Explains the value of the picture.	
pictogram	A chart which uses pictures to represent data.	
bar chart	A chart or graph which represents data using bars.	
scale	Regular intervals e.g. 2s, 5s and 10s	
symbol	A shape or mark which represents a number	

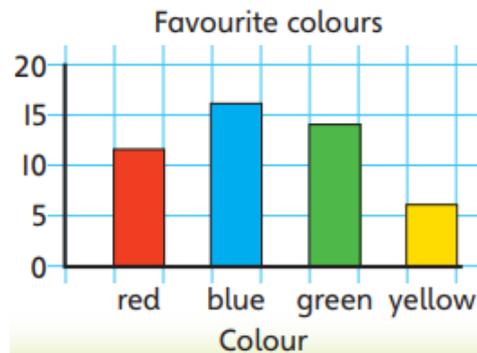

Representations

Pictogram

Each 🍌 represents 2 people.

Sport	Number
skiing	🍌🍌🍌🍌🍌
snowboarding	🍌🍌🍌🍌🍌🍌

Bar chart

Making connections

Counting

Counting in 2s, 5s and 10s will help with understanding intervals on a scale and working out the value of the picture.
